TENTATIVE PROGRAM

Website URL: http://cardiology.conferenceseries.com/
### Scientific Program

#### Day 1: November 14, 2016

**Opening Ceremony**

**Keynote Forum**

*Introduction*

Charles H. Hennekens, Florida Atlantic University, USA  
Yoshiaki Omura, New York Medical College, USA

**Keynote Speaker Slots Available**

**Networking & Refreshment Break**

**Tracks: Clinical Cardiology | Heart Failure | Heart Diseases**

**Session Introduction**

**Chair: To be updated...**  
**Co-chair: To be updated...**

- **Title:** Familial congenital heart disease- Induced by heterozygous missense mutation in Nkx2-5: Genetic and beyond genetic effects?  
  *Hideko Kasahara, University of Florida, USA*

**Speaker Slots Available**

**Speaker Slots Available**

- **Title:** Prenatal MR imaging of congenital heart diseases and associated abnormalities  
  *Tamara Feygin, University of Pennsylvania, USA*

- **Title:** Percutaneous Coronary Interventions in Patients with Renal Insufficiency  
  *Anil Om, McLeod Regional Medical Centre, USA*

- **Title:** Involvement of NADPH oxidase in coronary flow regulation by adenosine receptors  
  *S. Jamal Mustafa, West Virginia University, USA*

**Lunch Break**

**Track: Obesity and Heart | Cardiac Drugs | Cardiac Imaging and technology**

**Session Introduction**

**Chair: To be updated...**  
**Co-chair: To be updated...**

- **Title:** Efficacy and Safety of a Nutritional Supplement Combination on Dyslipidemia and Cardiovascular Inflammatory Markers  
  *Mark Houston, Vanderbilt University School of Medicine, USA*
Title: Gastropericardial fistula, uncommon complication for common surgical procedure
Khaled Sherif, Texas Tech University Health Science Centre, USA
Title: ENPP1-Fc inhibits proliferation of vascular smooth muscle cells
Yan Yan, Alexion Pharmaceuticals, USA
Title: Echocardiography guided right ventricular pacing lead tension adjustment decreases long-term tricuspid insufficiency

Speaker Slots Available

Networking & Refreshment Break

Title: Alcohol As A Risk Factor Of Cardiovascular Mortality
Yury Razvodovsky, Belarus
Title: Ablation dot number at pulmonary vein antrum is related to the long-term efficacy of paroxysmal atrial fibrillation
Caiyi Lu, PLA General Hospital, China
Title: Children with transposition of the great arteries: Should they actually be born in Nigeria?
Adeola Animasahun, Child Health Lagos State University College of Medicine, Nigeria
Title: To study the efficacy of right ventricular isovolumic acceleration by 2d-Echo in evaluating post operative outcomes in Tetralogy of fallot
Haribabu, Vydehi Institute of Medical Sciences and Research Center, India
Title: Volume-based quantification using dual-energy computed tomography in patients with cardiac tumors: comparison with late gadolinium enhancement cardiac magnetic resonance imaging
Jin Hur, Yonsei University College of Medicine, South Korea

Panel Discussion

Day 2: November 15, 2016

Keynote Speaker Slots Available

Workshop on "HeartMAApp: A technology-based intervention for telemonitoring support to improve heart failure outcomes"
Ponrathi Athilingam, University of South Florida, USA
Track: Women & CVD | Pediatric Cardiology | Diabetic Cardiovascular Diseases

Chair: To be updated...
Co-chair: To be updated...

Tissue Doppler Echocardiography after 25 years- Clinical utility or Technological hype?

George Thomas, Saraf Hospital, India

Speaker Slots Available

Computerized auditory cognitive intervention to improve cognition thus improve heart failure self-care and quality of life

Ponrathi Athilingam, University of South Florida, USA

"Special Session"

Long Term Effects and the Congenital Gap

Justin Basta, Tetralogy of Fallot Foundation Inc., USA

"Workshop"

Adipokines in the pathogenesis of heart failure: Good, Bad & Ugly

Gary Sweeney, York University, Canada

Day 3: November 16, 2016

Track: Cardiac Nursing | Cardiac Surgery | Current Research in Cardiology

Chair: To be updated...
Co-chair: To be updated...

Title: Long-term prognostic importance of pressure overload related cardiac deformation and thrombus formation and importance of Dabigatran in long-term management of chronic heart diseases

Fatih Yalcin, Johns Hopkins University, USA

Title: Longitudinal cardiac rotation abnormalities in children and young adults with end-stage renal failure undergoing hemodialysis: A pilot study

Sahar Sheta, Cairo University Childrens Hospital, Egypt

Title: Anxiety Symptoms in patients with cardiovascular risk factors

Lilian Lopes Sharovsky, University of São Paulo, Brazil
Title: Effects of moderate treadmill activity on cardiovascular factors in spontaneously hypertensive rats  
Herve Kibwe Mwewa, University of KwaZulu Natal, South Africa

Title: Comparison of first trimester to second trimester fetal heart examination in detection of cardiac anomalies in a tertiary fetal medicine teaching unit  
Sahar Sheta, Cairo University Childrens Hospital, Egypt

Networking & Refreshment Break

Speaker Slots Available

Title: Multimodality imaging of an unknown right atrial mass  
Nagwa Ibrahim, Aswan Heart Centre, Egypt

Title: Nullification by insulin of the testosterone induced synthesis of the signal molecule for the development of acute myocardial infarction in breast cancer through nitric oxide synthesis  
Emili Manna, Sinha Institute of Medical Science and Technology, India

Title: Use of Risk Assessment Tool to optimise cardiovascular management strategy  
Syed Raza, Awali Hospital, Bahrain

Title: Risk assessment models for myocardial infarction  
Galya N Atanasova, Medical University, Bulgaria

Title: Do we apply current guidelines while prescribing statin therapy?  
Syed Raza, Awali Hospital, Bahrain

Title: Critical challenges of economic and social issues in promoting dietary change and positive food choices for poor people with low income who experience cardiovascular disease in Pakistan  
Rubina Barolia, Aga Khan University, Pakistan

Video Presentations

Title: The release of transitory amplifying cells from cardiac stem cell-containing “cell-in-cell structures” and their cardiac differentiation is a main way of cardiomyogenesis after transient myocardial ischemia in the Rat  
Galina B. Belostotskaya, Sechenov Institute of Evolutionary Physiology and Biochemistry, Russian Federation

Title: The unusual cause of dangerous arrhythmias at the young- Original case report  
Manuela Stoicescu, University of Oradea, Romania

Title: A study to assess pharmacist's knowledge and attitudes toward Pharmacovigilance and the reporting of adverse drug reactions of medications in Saudi Arabia  
Mais H. Iflaifel, King Faisal University, KSA

About Florida

Florida is a state in the southeastern region of the United States. It is the 22nd most extensive, the 4th most populous, and the 8th most densely populated of the 50 United States. The Miami metropolitan area is the largest metropolitan area in the southeastern United States. Much of Florida is a peninsula between the Gulf of Mexico, the Atlantic Ocean and the Straits of Florida.

Florida has the longest coastline in the contiguous United States, encompassing approximately 1,350 miles (2,170 km), and is the only state that borders both the Gulf of Mexico and the Atlantic Ocean. Much of Florida is a peninsula between the Gulf of Mexico, the Atlantic Ocean, and the Straits of Florida. One of Florida's most important natural resources has always been its climate hence it is nicknamed as “Sunshine State”. It is a popular tourist destination for its many beaches, wildlife in areas like the Everglades, large cities such as Miami and theme parks like Walt Disney World. The Walt Disney World Resort is the most visited vacation resort in the world with over 50 million annual visitors, consisting of four theme parks, 27 themed resort hotels, 9 non-Disney hotels, four theme parks, two water parks, four golf courses and other recreational venues.

Its economy relies mainly on tourism, agriculture and transportation, which developed in the late 19th century. Florida is also known for its amusement parks, the production of oranges and the Kennedy Space Center. Florida culture is a reflection of influences and multiple inheritance; Native American, European American, Hispanic and African American heritages can be found in the architecture and cuisine. Florida has attracted many writers such as Marjorie Kinnan Rawlings, Ernest Hemingway and Tennessee Williams, and continues to attract celebrities and athletes. It is internationally known for tennis, golf, auto racing and water sports.
Tourist Attractions In Florida

Islands of Adventure

Disney World

Sea World Orlando
Sessions at Glance

- Clinical Cardiology
- Heart Failure
- Heart Diseases
- Obesity and Heart
- Cardiac Drugs
- Cardiac Imaging and technology
- Women & CVD
- Pediatric Cardiology
- Cardiac Nursing
- Diabetic Cardiovascular Diseases
- Cardiac Surgery
- Current Research in Cardiology

Venue:

Double Tree by Hilton Hotel Orlando Airport
5555 Hazeltine National Drive
Orlando
Florida, 32812 USA
Final Program To Be Updated Soon
